

Selecting the right angle for your boat

Although we produce three distinct angles of incline for our flag masts, the most popular design has been our sleek looking 70 degree aft raking "SuperSport" flag. *"She looks like she's moving fast when standing still"*. This flag is available in 16, 20 and 30 inch sizes. The original 90 degree masted flag and the 80 degree masted "FastForward" (shown below) are only available by special order. For customized flags with unique applications. Please contact us.

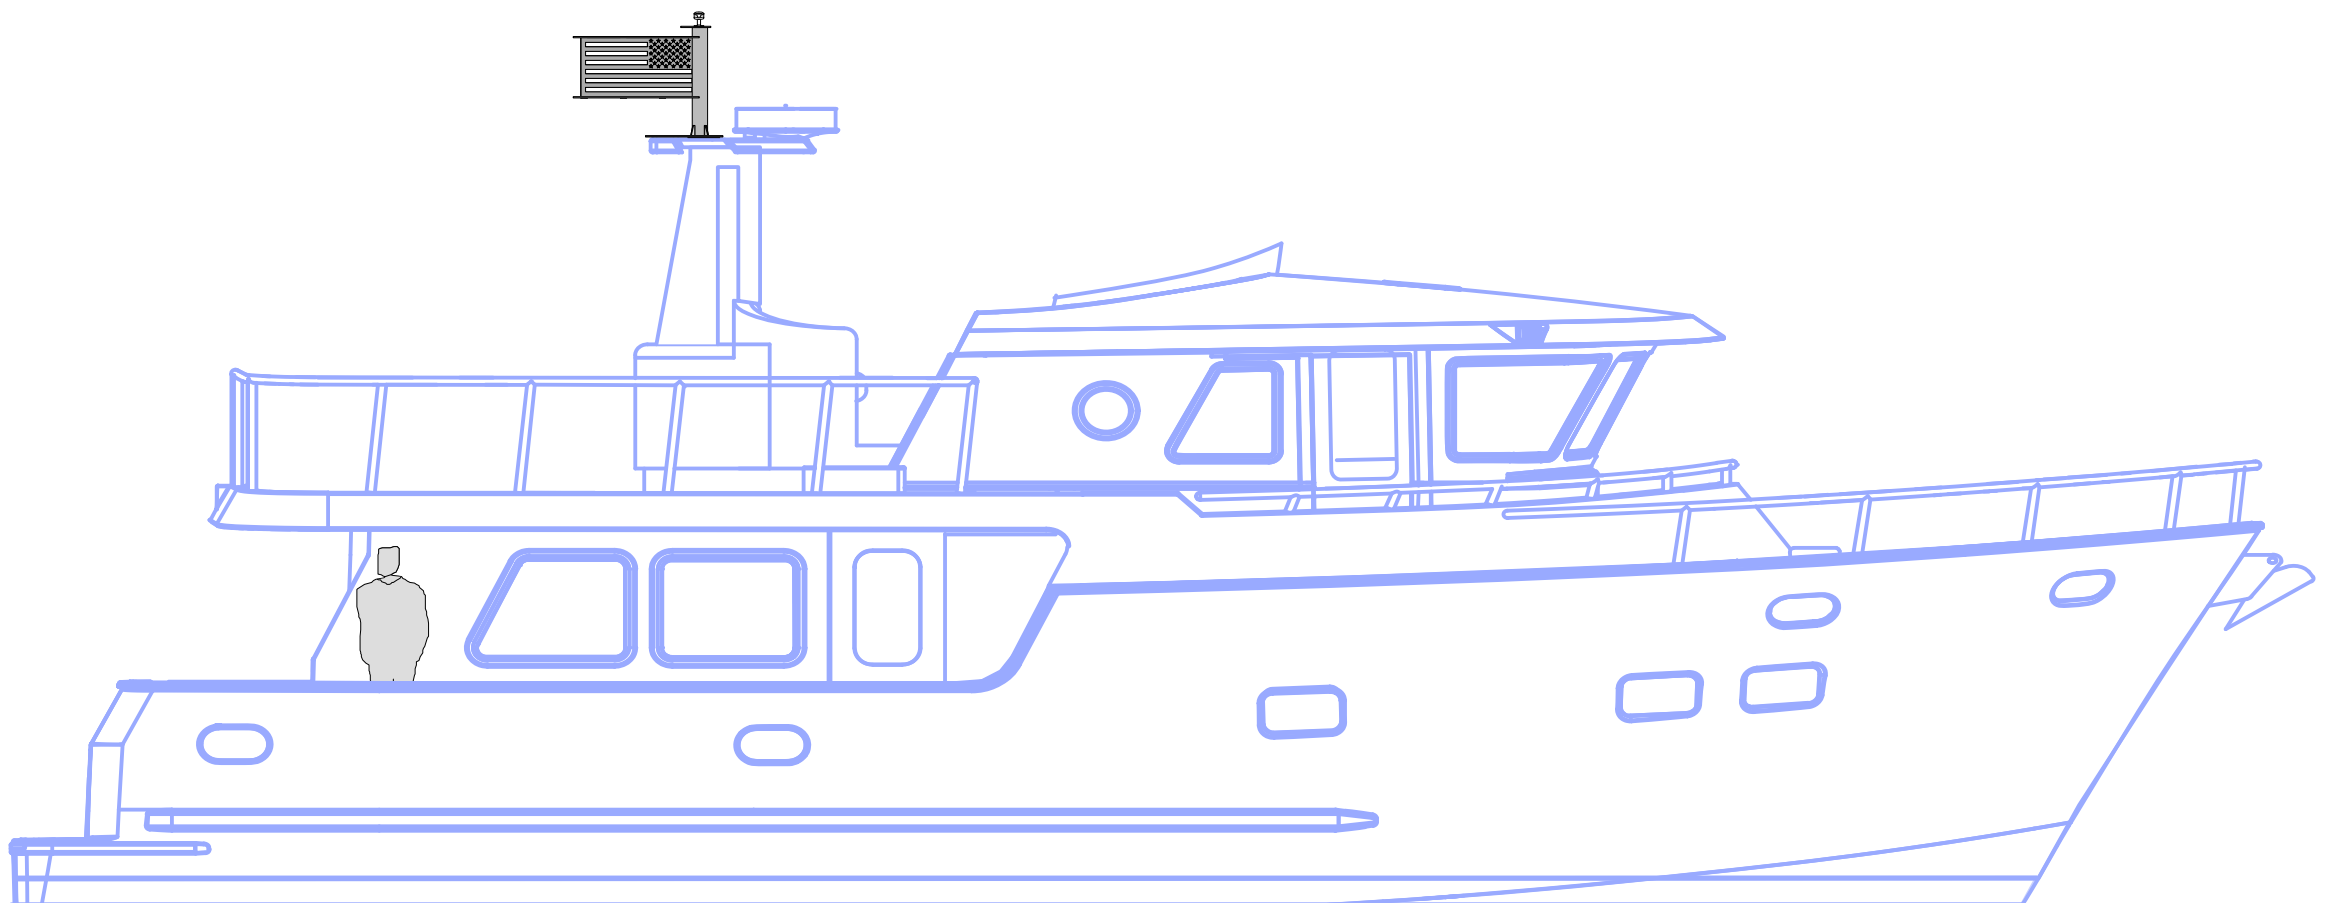

70 DEGREE MAST: The "SuperSport": **Our most popular flag**

The latest flag from Fast-Flag. Ideally suited for today's fast planning modern vessels.
Available in three sizes: 16", 20" and 30"

80 DEGREE MAST: The "FastForward":

With its 80 degree raked look, a fitting look for most cruisers
Special Orders Only: Available in two sizes: 20" and 30"

90 DEGREE MAST: The "Original" Fast-Flag

With her straight up 90 degree mast, this flag is right at home with most trawlers and full displacement vessels.
Special Orders Only: Available in two sizes: 20" and 30"
